Tejasvini Pujari

Software Test Analyst at KPIT ,Pune

Personal Information

Education :BE Computer Engineering.

Address:Pune

Phone:+91-9529940854

Email: stejasvinipujari@gmail.com

Profile

• **2.5 years** of professional experience in **Manual Testing, ETL Testing ,Database Testing using SSIS , BI testing and Functional Testing** with good knowledge of **UNIX** and **SQL** Technologies.

• Domain Experience in **Telecom Billing-BSS** .

• Well versed with **SDLC, STLC , Testing Concepts** and **agile** Methodologies . Have worked on **SCD1 , SCD2** mappings for **ETL testing** & **Agile methodology.**

• Have good knowledge of **Data Warehousing** &Experience in **BI testing** using **Tableau** .& Strong experience in analyzing requirements (**SRS**) and identifying **Test Scenarios** , **Designing Test cases**, **Test case execution**, **Defect Logging** and **Defect analysis**.

• Experience in **Sanity, GUI, Functional, Non-functional, System, Regression and SIT/End to End Testing.** Proven skills in completing **black, white and grey box test.**

• Strong experience in all phases of **software testing life cycle** such **as requirement analysis, test lanning, test scenario and test case design, test case execution, defect tracking** and managing **defect lifecycle** . Participate in **Scrum Meeting** to discuss issues and work activities.

• **Analyzing the target database design a**nd its usage so that the transformations which convert the **source data into target data** structures are clearly documented and understood.

• Extensive experience in **ETL process** consisting of **data transformation, sourcing, mapping, conversion and loading. &**Handling **data mapping, data integrity,**

• Preparing **Test Plan, Test Strategy and Daily Testing Status Report**, **Test Closure Report** and send to all stake holders.&Strong Knowledge **of Tableau reporting Tool.**

• **Database testing** with table structure validation and file validation by writing **SQL queries & Table structure Validation** and **Data Manipulation.**

TECHNICAL SKILLS

Testing :	Manual Testing
ETL Testing:	SSIS
Database Testing :	SQL Server
Test Case Management & Defect Tracking Tool :	JIRA
BI Testing :	Tableau
Operating System :	UNIX
STLC Method :	Agile Method

WORK EXPERIENCE

Software Test Analyst

KPIT-Pune   **06/2020- Current**

PROJECT NO 1

Project Name : **CRM -Billing integration [End to End Testing]**

Client : **Cox Communications, USA**

Role : **Jr.Test Engineer.**

Environment :Pycharm ,Agile,SQL Server,Agile

RESPONSIBILITIES:

• ETL testing, validating data from **source and destination**. Writing **SQL queries, Data**

validation testing.

• Participation in Reject analysis with Developers team. Testing the mappings which are

based on **SCD-1 and SCD-2.** Executing testing activities and working within deadlines.

• **Analyze User stories, and User Interface** Specifications documents

• **Prepare and Execution of Test cases** from Use case to meet Business Logic Done the
review and send review comments to others.

• **Reporting and Closure of Defects submitted in Defect Tracking tool** Interaction with

Onshore team in defect fixing process&**Review of SRS, and User Interface** Specifications
documents

• **Prepare and Execution of Test cases from Use case** to meet Business Logic Preparation
of **Test Plan, Test Strategy, Test Traceability matrix and Test reports.**

• **Performed Database Testing** at Application level and analyze data types and length from

LLD Done the review and send review comments to others.& **Reporting and Closure of
Defects submitted** in Defect Tracking tool.

PROJECT NO 2

Name : Creditcall Payment System

Client : Creditcall, UK

Role: Software Test Analyst

Environment: Agile ,SQL Server,Window-10,Jira

RESPONSIBILITIES

• **Understanding the Requirements** and **Functional Specifications** of the application.

• **Writing SQL queries, Data validation** testing.& **Analyze User stories,** and **User Interface Specifications documents**

• Prepare and Execution of **Test cases** from Use case to meet Business Logic Done the review and send review comments to others.

• Reporting and Closure of Defects submitted in **Defect Tracking tool** .

• **Validate the Reports using SQL Queries, Excel and Cubes.** Participated in identifying the required Test scenarios and Test Cases. Count Validation, Data Model Validation.**Executed Queries and compare** with Dashboard.

• Involved in team meetings in regular intervals of time to **monitor the Quality of application in daily, weekly status report meeting.&Run the SQL Queries** and **validate the data.**
